

ASCENT® SERIES

ASCENT SERIES BY STRONG SPAS

Variety, affordability and options galore! Plenty of features, sizes and colors abound in the Ascent Series with UV/Ozone sanitation, patented DURA-SHIELD® HardCover and DURA-BASE® resin base upgrade.

ASCENT SERIES BY STRONG SPAS

DURA-SHIELD® HardCover EXCLUSIVE, PATENTED AND GUARANTEED

Strong Spas' innovative, patented, integrated cover technology is our legacy and crowning achievement. Robust, stainless steel hardware anchors our DURA-SHIELD® HardCover with integrated ULTRASTRONG® Manual Lifter System. This cover is so easy to open and close it is the solution to all spa cover worries.

DURA-BASE®

INDUSTRY'S THICKEST AND STRONGEST BASE: Impermeable and pest-resistant, DURA-BASE creates a thermal barrier and provides even load distribution. Only minimal site preparation is required.

STRONG-BOND® SPA SHELLS

- One of the industry's strongest and thickest triple-layered shell designs
- Co-extruded ABS laminate allows for better color consistency and dramatic reduction in delamination
- No roll-out air pocket issues
- Sag resistant
- Exothermal adhesion of rigidizing layer
- Styrene-Free! Environmentally-friendly process vs fiberglass which emits toxic VOCs

UV/O3 SANITATION

By exposing ozone-infused water to UV, you'll enjoy a better clean that is one million times faster than traditional oxidizers. This all-natural antibacterial spa cleaning method eliminates chemical by-products.
